

**REMARKS**

The above amendment has been made to clarify that the present application is a continuation-in-part of previous patent applications as indicated in the amendment. The parent application, U.S. Serial number 07/547,980 was copending at the time of the filing of this patent application. Applicants inadvertently omitted to include the cross-reference to the related applications.

Applicants request entry of this amendment and correction of the Official Filing Receipt.

Respectfully submitted,  
Linsley et al., Applicants
